### Home News.

Attorney J. W. Davis returned from Pinal this week.

The first watermelons of the season were brought into Florence on the 4th.

Chris. Lora came down from Butte on the Fourth to get cooled off in this un-bowed burg.

The Weekly Scull man can swing his war club in very good style when he takes a notion to enter the lists.

Messrs. Smith & Murray have made a large addition to their shelf room for the accommodation of their increased stock.

Ripe peaches from Treasurer Brady's fine orchard, situated below Florence, are making their appearance in our local market.

Owing to the unusual press of matter this week we are obliged to leave out the official records. They will appear next week.

Joseph Collingwood and Smith & Murray keep several teams busy hauling in new goods. They are driving a lively trade.

A communication from Mr. P. A. Brown, of Pinal, arrived too late for publication this week. It will appear in our next issue.

Treasurer Brady returned from Tucson Sunday with his little daughter, who has been attending school at the convent in that city.

Mrs. J. G. Santa Cruz presented her better half with a nine-pound boy Wednesday morning. He arrived almost in time to celebrate the Fourth.

Mr. A. B. Lawson and Sheriff Gabriel left for Silver King on Wednesday morning on business connected with the Northern King Mining Company.

There was a new arrival at the residence of Postmaster Guild Friday morning. It was a nine pound boy. Our congratulations are herewith tendered.

The death of Major Baldwin has caused a temporary lull in activities at the Pioneer, but arrangements for pushing work and erecting the new mill will soon be perfected.

There was a very successful ball at Silver King on the evening of the 4th. A large number of persons from Pinal were in attendance. The occasion was an exceedingly enjoyable one.

Mr. Wm. E. Guild is starting out well in his insurance business. He issued a twelve thousand dollar policy on the new court house and jail building this week. The Hartford is a good company.

Jake Strubridge, one of the best drivers in the Territory, is now driving for the Texas and California Stage Company between here and Casa Grande. We are glad to see Jake back at his old post.

Mr. Henry Donnelly left for San Francisco Saturday, having turned over the work at the Pinal Consolidated to Mr. Sterens, the new superintendent. The latter is turning out bullion in good style.

Postmaster Guild made a good display of fireworks in front of his residence on the evening of the Fourth. They were bought to gratify Master Not, and his juvenile excellency was delighted with the exhibition.

Mr. Joseph Collingwood is buying a large amount of new grain. The large sheds in his store corral will soon be filled to their utmost capacity with sacks full of grain. The agricultural products of this valley will make a good showing this season.

Judge Bush and William Tweed, Jr., came down from Dudleyville to celebrate the Fourth in Florence. The Judge was an active participant in the pleasures of the dance at the Court House Tuesday evening, and notwithstanding his advanced age, seemed to be the youngest of the young insipids.

The Texas and California Stage Company, the principal men of which are Messrs. Griffith and Stevens, took possession of the stage line between here and Casa Grande, and here and Pinal, Silver King and Globe, on the 1st. They are among the best stage men in the West, and keep up their lines in first class style.

Mr. John T. Bates, of Dudleyville, was in town last Saturday on legal business. He took home with him a load of lumber with which to complete the elegant and commodious residence he is building in the Gila valley. He is among the fortunate few who have realized handsomely from the sale of mines in that section, and is putting his money to good use.

The citizens of Casa Grande and vicinity have petitioned the Board of Supervisors for the establishment of a new school district, to include that place and Maricopa. Their prayer should be granted. They have a goodly number of school children in that section, and have already taken steps towards providing themselves with a good school building.

Mr. Aaron Mason, accompanied by Mrs. Charles Mason and son and Miss Arabella, Mrs. Mason's niece, returned from San Francisco Friday. The young lady has been attending school at San Jose during the scholastic year just ended, and came home to spend the vacation. The trip was a great benefit to Mrs. Mason's little son, who had been in ill health for some months previous to his visit to the city. He has entirely recovered.

### The Picnic.

The picnic held at the residence of Mr. P. R. Brady on the Fourth was one of the social surprises of the season. It had been talked of for some time, but took no definite shape till the 1st, upon which day Mrs. W. L. Bailey, with characteristic energy and public spirit, engaged in the work of preparation and carried it to a successful conclusion. The grounds were thronged with people by eleven o'clock, notwithstanding the excessive heat. No regular programme had been laid out, and each of the merry makers was left to follow the bent of his or her own inclination in the pursuit of pleasure. The Los Angeles string band was in attendance and discoursed choice music for the benefit of those who desired to indulge in the exhilarating and delightful exercise of dancing. A basket dinner was served at 3 o'clock, and there was a superabundance of the most choice and tempting edibles. Ice cream was served to all present, and there was no end to the supply of iced lemonade. The day's entertainment was concluded with a ball at the Court House hall in the evening, and the latter was as perfect a success as the picnic. Below will be found Mrs. Bailey's report of collections and expenses:

### Pacific Water Jacket Smelters.

The vast mineral deposits of smelting ore now being developed in all parts of Arizona has created a large demand for the most approved means of reduction. The Water Jacket Smelters for both galena and copper ores made by the Pacific Iron Works, Rankin, Brayton & Co., of San Francisco, seem to have met all requirements in this way, and have so far been universally successful in working every class of ores found in this Territory. All our most enterprising companies are using them in preference to any other make, and so far as we can learn, with the most satisfactory results. We recall no instances in which anything like a failure has been made with these smelters, while many others have wrecked the fortunes of those who have put their trust in them. These smelters unquestionably embrace the most perfect mechanical appliances now known for the treatment of all classes of smelting ores, and their general adoption has greatly stimulated mining development, and contributed much to the material advancement of this interest in all the mining States and Territories.—Arizona Citizen.

### Casa Grande Items.

This little burg is lively as a cricket and improving steadily—several new buildings being now in course of construction and more to follow soon.

The freighting business outside of the Silver King business is not very brisk at present. Station agent Elliott spent the greater portion of this week at Silver King, looking up mining interests preparatory to going to the Denver Exposition.

The mining camps south of here are all in a prosperous condition, and all interested parties preparing to count their "fingers" by the million in the near future. Smith & Murray are doing a rushing business in their line, being obliged to work early and late to get all attended to.

J. Champion is putting in a stock of building lumber in connection with his lumber yard.

There was a pleasant and enjoyable time had by all those who attended the dance on the evening of the 4th. J. Tomlinson, the ever obliging, is enjoying a first-class trade.

Court adjourned to Saturday, July 15, 1882, at 10 A. M.

### The Census.

The Census Marshal has made his returns to the Board of Supervisors, and they have not yet accepted his list, believing that it is incorrect. There is a great deal of dissatisfaction with the result, but we are not prepared to say whether it is well grounded or not. We had believed, with many others who are well acquainted throughout the county, that the population would foot up to 4,600, and the total of 3,531 was a surprise as well as a disappointment, but it may be correct. The figures, as returned by districts, are as follows: Florence, 1,309; Pinal, 861; Silver King, 245; Hastings, 43; Saccaton, 31; Vekol mine, 20; Picacho, 40; Maricopa, 80; Butte, 194; Casa Grande, 39; Oracle, 46; American Flag, 28; Owl Heads, 22; Mesa-ville, 86; Dudleyville, 107; Riverside, 46; Chinaman in the county, 171; total, 3,531. Supervisor Cook claims there are at least one hundred men in the coal fields, and four more on the San Pedro that are not included in the list. The population in 1880, when Globe and the mining districts surrounding that place belonged to this county, was 3000. The annexation of the Globe country to Gila county in 1881 deprived us of about 1,000 people, leaving our population at that time at about 2,000. These figures show that our population has increased a little over 58 per cent—a splendid showing.

Messrs. Geo. Evans, James Elder, Ben Van Vlack and several other citizens of the Riverside district were in town Monday. They are all creditors of the old Pinal Copper Company, and were here on business connected with that company.
